- ____ 28. I avail myself to professional development and training to enhance my knowledge and skills in the provision of services and supports to culturally, ethnically and linguistically diverse individuals and families.
- ____ 29. I advocate for the review of my program's or agency's mission statement, goals, policies and procedures to insure that they incorporate principles and practices that promote cultural diversity and cultural competence.

How to use this checklist

This checklist is intended to heighten the awareness and sensitivity of personnel to the importance of cultural diversity and cultural competence in human service settings. It provides concrete examples of the kinds of practices that foster such an environment. There is no answer key with correct responses. However, if you frequently responded "C", you may not necessarily be engaging in practices which promote a culturally diverse and culturally competent service delivery system for individuals and families.
